VI INTERNATIONAL CONFERENCE "CONCEPTUAL AND APPLIED ASPECTS OF SCIENTIFIC
RESEARCH AND EDUCATION IN THE FIELD OF
ZOOLOGY OF INVERTEBRATES"

October 20-23, 2025.
(Russia, Tomsk)

The first information letter

The purpose of the conference is to create an environment for discussing scientific achievements and trends in the field of invertebrate zoology and attracting the attention of scientists to modern problems in this field.

The program includes oral and poster presentations, and six sections are planned to work:

- "Fundamental aspects of invertebrate zoology";**
- "Parasitological research";**
- "Paleoentomology";**
- "Invertebrates in practical economics";**
- "Interaction of microplastics with invertebrates";**
- "Zoological collections in science and education".**

The sections are supposed to discuss scientific problems on various applied and fundamental aspects, as well as problems of education in the field of invertebrate zoology.

Employees of scientific, scientific and practical organizations, teachers of universities and general education schools, graduate students and students, as well as practicing beekeepers are invited to participate.

The working languages of the conference are Russian and English.
